[Externe email]

Hi 5.1.2.e

Find the latest ReNEMA output national totals attached. They are still in the slightly awkward old format, but I think it should still be quite straight-forward.

Let me know if something is missing/unclear.

Kind regards,

5.1.2.e

Subject: Comparing ReNEMA outputs with NEMA

Hi 5.1.2.e

We spoke this morning about comparing the ReNEMA results with NEMA.

I can get the NEMA results and aggregate them to RAV categories (5.1.2.e will send me the conversion table).

Could you send me the national totals for 1) animal numbers and 2) N/P2O5 housing/grazing excretion per animal category? If you already have them for emissions, that would also be nice, but we can also do that later when the emission model is further implemented.

Cheers!

5.1.2.e
