[Externe email]

Dear 5.1.2.e

Sorry to hear that 5.1.2.e will not be able to join.

Let's focus the session on the data discussion with the information you can share. We can have a separate discussion with 5.1.2.e focused more on the content when she is available.

I will adjust the timing of the meeting to match the adjust agenda.

See you later.

Best,

5.1.2.e

Dear 5.1.2.e

Unfortunately, due to unforeseen circumstances, 5.1.2.e cannot attend the TNO/CBS meeting tomorrow. This afternoon, she shared her initial findings with me.

I will be there in person tomorrow. I cannot give the promised presentation, but I have sufficient information about which data can be shared. Several choices need to be made here. Not only regarding the content of the data itself, but also regarding the timing of its submission (I expect an iterative process; for example, which aggregates are most useful; our first choice is probably not optimal). I estimate we need a maximum of 30 minutes of discussion time.

Best regards,

5.1.2.e

Dear 5.1.2.e

Thank you for the update.

I think presenting my findings should take around 15 minutes, and with discussion included, probably around 30 minutes in total.

See you on Friday!

Kind regards,

5.1.2.e

Dear 5.1.2.e

We have our next meeting scheduled for this Friday, and we are looking forward to sharing the new insights we gained from the manure transport data.

During our last meeting, we also discussed that you would further explore, for example, how and what data can be shared. Below again also some things we would be interested in. I would like to reserve some time on the agenda for you to present your findings. How much time should I plan for this?

On Friday, I will come pick you (and 5.1.2.e) up at the reception. The address is Princetonlaan 6, 3584 CB Utrecht.

Please let me know if you have any questions in the meantime.

Best wishes,

5.1.2.e
