Subject: RE: Enquiry about availability of data for an LVVN commissioned project

Dear 5.1.2.e

I am sorry for my late response. We have serious capacity problems. We need to set priorities.

Your request is not part of our regular work program. Due to strict statistical legislation, Statistics Netherlands can only do these extra activities if sufficient budget is provided to finance our hours worked.

You refer to an LVVN commissioned project. I do not know which one. I do not know the deadlines and deliverables. I also do not know if Statistics Netherlands is mentioned in documents like the project plan. It feels like there is no formal agreement at all to do the requested activities. Without such agreement and sufficient budget (including administrative information) we cannot start our activities.

What deadline do you have for our work? I expect that we cannot provide all the requested data. If we send a completed Excel back to you, do you expect some follow-up activities from our side?

Who is going to provide sufficient budget? Without explaining all the legal details, it is easier, in administrative sense, if LVVN is providing the budget.

Please, answer my questions.

Best regards,

5.1.2.e 5.1.2.e
Statistics Netherlands
