Hi 5.1.2.e

I suggest that you include more nitrogen results/information, because it is the N workshop (to make it more interesting for the participants, who are N scientists not modelers), e.g. that you have large data-bases on location of housings, spatial distribution of the number of animals, soil maps, crops, manure, large data-bases on N and fertilizer distribution models, crop yields etc.

Best regards

Hi all,

5.1.2.e and I made an abstract for the N workshop in Sassari (Sardinia). I want to submit it tomorrow at the end of afternoon. If you have any suggestions, could you let me know at 14:00 tomorrow latest? abstract Nworkshop ReNEMA.docx

Thanks in advance!

Best,
