Dear 5.1.2.e and 5.1.2.e

Thank you 5.1.2.e and 5.1.2.e for your feedback! In this version, I already incorporated your comments and referred to the uncertainty analysis from 2012 in the conclusion.

5.1.2.e you can work in this document when you get back on Monday. I will put it together as soon as possible, because we agreed with LNV to send them the report at the beginning of next week. 5.1.2.e digestibility document will be added to the appendix next week as well.

Regards,
